'John's Pet Photography' will be at *BIG AI's* in Hamilton providing High-Resolution digital images of your pet at discounted rates. This offer will be limited to available spots to those who sign up and prepay at the front desk (open slots may be available if time permits first come first serve). You are welcome to join your pet for the portrait, or have more than one pet in the photo depending on space considerations.

For best results, please have your pets groomed or brushed prior to the photo session. If your pet has a favorite toy, stand or piece of clothing, bring it along! In order to help maintain your pets attention, have some treats available for them to eat...they deserve it.
